Sometimes I think  
How could I've been so innocent?  
You were always by my side  
Trying to bring me down  
Trying to bring me down  
You are

You're like a spider  
Waiting for a little bug  
You want to waste my energy  
And take me so far away  
You want to drag me down  
You want to drag me down

Don't spend your time  
The game is over for you  
Don't waste your mind thinking about me  
'Cuz I'm not falling to your web  
'Cuz I'm not falling to your web  
Yeah... You are

You're like a spider  
Waiting for a little bug  
You want to waste my energy  
And take me so far away  
You want to drag me down  
You want to drag me down

You're like a spider  
Waiting for a little bug  
You want to waste my energy  
And take me so far away  
You want to drag me down  
You want to drag me down
