"Sweet Threat"

Here I am again and against
To show you something about our lifestyle
You think we're joking but this is the way we live

Our music and our dance is a kind of gun against you
[2x]

This is our sweet threat for you
I'll dance, dance, dance in front of you [2x]

If our dance is a kind of aggression
You have to understand
The way we act
We have so much more
We have so much more to show
You might be a victim of our sweet threat

This is our sweet threat for you
I'll dance, dance, dance in front of you [2x]

Dance in front of you

This is our sweet threat for you
I'll dance, dance, dance in front of you [2x]
