I can't understand what you expect from us  
Be on a hardcore band is not easy  
As far it goes, goes anywhere further  
Independent and alone, we're still alive

You don't know about what happens around us  
Can't you live our days? [2x]

So I show it for you

Learning by the past mistakes,  
Enjoying even unlucky days  
Making fun of our disgraces,  
Get on the road again

You don't know about what happens around us  
Can't you live our days? [2x]

So I show it for you

All these things make part of our lives  
We can't runaway of this reality  
There is no price that pays  
To live these unlucky days

You don't know about what happens around us  
Can't you live our days? [2x]

So I show it for you
