"Until My Hope Ends"

So many times, when I felt down
I used to have your hand to help me wake up
And I do remember when you were there
And now I'm here to hold you hand
I tried to say but you didn't listen to me
Now it doesn't matter anymore
If you want help, here I am and you know that
How can I stay quiet watching you destroy yourself like
that?
Can't you see you hurt me too?
And I'll keep helping you 'til my hope ends
Until my hope ends
I tried to say but you didn't listen to me
Now it doesn't matter anymore
If you want help, here I am and you know that
