Verse 1

Girls are looking fresh it's easy to see
I love it when they shake their booties for me
Short skirts high boots
Low shirts seductive moves
You know she likes it rough
And that's the way we like to ****

Chorus

We like sex and drugs
We like late night clubs
We like real fast cars
We like to buy out bars
We like living large just like superstars
You know we like to party till the sun comes up

Verse 2

Bass bumpin crowd jumpin
Beat thumpin fist pumpin
That's the way we get down
Up in Chi Town
Line full of tens let em all in
Club's like damn where they been

Aint no stopping dj's droppin

Girls are hopping, partys poppin

What's that track? Damn it's dope!

Turn that up, yea we want more

Flashing lights, with the strobe

Work that flow oh fo sho

We like electro

We like hip hop

Chorus

We like sex and drugs

We like late night clubs

We like real fast cars

We like to buy out bars

We like living large just like superstars

You know we like to party till the sun comes up

Verse 3

Blacked out, no doubt tonight

All this hype making me psyched

Speakers banging sounds tight

Drop another molly I just might

Clean and smooth that's my type

Making me move thru out the night

She keeps me feeling good

You know just like she should

Girls are fine on my mind

Waste no time I'm front in line

Drinks on me then her on me

Clothes off I love what I see

Chorus

We like sex and drugs

We like late night clubs

We like real fast cars

We like to buy out bars

We like living large just like superstars

You know we like to party till the sun comes up

We like electro

We like hip hop
