Your words I wont follow.Your words I wont follow  
Your words I wont follow.Your words I wont follow  
Broken by your lies.You turn your back and walk away  
And nothing is fuckin changed  
I tried so hard to be myself and you?  
Broken by your lies.You turn your back and walk away  
And nothing is fuckin changed

Wasting all my time. Dont take me there  
Wasting all my time. I wont go back

The greatest guilt in this cold world we are sinkinÂ' in  
Its the word that draws the borderline and you crossed  
it one more time  
Your words I wont follow.Your words I wont follow  
Your words I wont follow.Your words I wont follow

It was nothing but lies wasting all my time with you.
