[Originally by Dag Nasty]

What'd you say
When we said
We'll be here 'til tomorrow
In my heart and in my head
Fear of failure
Fear of reprimand
Two big problems I've never had
I never doubted what I have inside
What I have inside
Values here
In my heart
And we'll be here through tomorrow
Every day's a brand new start
Fear of failure
Fear of reprimand
Two big problems I've never had
I never doubted what I have inside
What I have inside
Fear of reprimand
Two big problems I've never had
I never doubted what I have inside
What I have inside
