Ara Belle  
lying in our arms  
lying here we're listening to a chord  
we've never heard before  
I'm just another  
Just another mother brought to tears  
filled with what she hears  
breathing  
Ara breathing

Breathing as the secret fell  
through the skin of Ara Belle  
all of us could hear our selves  
in the breath of Ara Belle  
in the breath of Ara Belle

Ara Belle  
opening her eyes  
opening a mirror next to me  
suddenly I see  
shining  
Ara shining

Shining as the secret fell  
through the skin of Ara Belle  
all of us could see our selves  
in the lamp of Ara Belle  
in the lamp of Ara Belle
