Forget "Creation", forget "Big Bang"  
and the chance mutations of Darwin's gang  
the Universe is made of notes  
that only exist in someone's throat  
mmm...

Half his life Mohammed heard  
weird voices and wrote their words  
it's also true but seldom said  
this tune was always in his head  
mmm...

Wherever life appears  
it's separated by light years  
but no two points can be remote  
once they have heard these notes  
mmm...

Every atom plays the hymn  
every echo is from within  
every eardrum makes a map  
and it sounds like this when one hand claps  
mmm...

I've seen this with a prophets mind  
I've seen the future of mankind  
which is not hell, which is not bliss  
but all I can say is it looks like this  
mmm...
