She's comin',  
She's comin' to the planet  
check out, dammit  
All the light will bake your body  
she's got big watts of love  
She's so bad ass  
and back at last  
you gotta praise the fuckin' Lord

Baby God, five feet tall  
jumpin' off of the Wailing Wall  
Acolytes all somersault  
on a blue-green disco ball

She's mortal,  
a meta-model Barbiesattva  
she's gotta lotta Prada-prana  
"I will, I will freak all beings  
till they're free and shit like that"  
Love gave the World Its only girl  
to dance the dead awake

(Chorus)

She's comin' down now,  
She's comin' down now,  
Blowin' a kiss to the mystic misfits

(Chorus)

I know she's only savin' souls  
but I guess I like it  
but I guess I like it  
I know she's only savin' souls  
I know she's only savin' souls  
but I like it  
I like it, I like it  
she's only savin' souls
