All I ever wanted was to  
get laid in a haunted house  
all I ever wanted was to  
punch out mickey mouse  
and all I ever wanted was just  
breath mints and cigarettes  
all I ever wanted was just  
one blonde and one brunette, so

pull that pistol, tease that trigger  
make that missile blow up bigger  
sugar bullets  
shoot off my  
sugar bullets  
shoot off, shoot off

all I ever wanted was the  
buddha without buddhism  
all I ever wanted was just  
jesus christ without the christians  
and all I ever wanted was just  
peace and love without the pot smoke  
and all I ever wanted was just  
porno flicks without the plot, so

pull that pistol, tease that trigger  
make that missile blow up bigger  
sugar bullets,  
shoot off my  
sugar bullets

shoot off, shoot off

shoot off sugar  
shoot off sugar  
shoot off sugar

baby  
we're skin pinatas stuffed with plasma  
aren't we  
sweet stigmatas stain the mattress

aren't we  
kundalini meets karate  
knocks me out of my own body

pull that pistol, tease that trigger  
make that missile blow up bigger  
sugar bullets,  
shoot off my  
sugar bullets  
shoot off, shoot off

sugar bullets,  
shoot off my  
sugar bullets

shoot off sugar  
shoot off sugar  
shoot off sugar
