There's no third world or racial hate,  
no corruption in the federal state  
the patriots are drooling pride,  
they're on the just and righteous side  
The water's clean, the air is pure,  
the pension plans are still secure  
D.C.'s got our best at heart,  
and Dan Quayles's got a new golf cart

I finally realize how sick it is to slam  
someone as beautiful as honest uncle Sam

There's food on every family's plate  
in the free United States  
Justice found the perfect mate  
in the free United States

The white house won't forget the Kurds,  
there's more to Bush than prudent words  
A thousand points of light are back,  
to guide the children in Iraq  
No oil is spilled on virgin shores,  
no senators solicit whores  
Got no place to call your own?  
stay in Boschwitz's summer home

It doesn't smell when we fecate  
in the free United States  
There is no jobless rate  
in the free United States

I finally realize how sick it is to slam  
someone as beautiful as honest uncle Sam

Politicians are our friends, freedom drives Mercedes-  
Benz  
Bureaucrats are never wrong, shut your mouth and go  
along  
think with true simplicity, salute in synchronicity  
sell your love to candidate, straight ticket voter, bait  
prostitute your moral laws, the nation is the higher

cause  
give your soul to Bush and Quayle, democracy has  
never failed

It doesn't smell when we fecate  
in the free United States  
There's food on every family's plate  
in the free United States

Puppet office figurehead, hungry people never fed  
aids, crack, date rape, Washington's red tape  
Incest, loop holes, bribed judge quick parole  
fiscal debt, broken home, Marion Barry real stoned  
Sex scandal, air pollution, just say no bad solution  
Hubbel space aberration, never was a greater nation  
clench the money in your fist, live like ethnocentricists  
Gruneth's pool party, squad cars always tardy  
blue collar suicide, General Motors worker's pride  
Desert storm loyal praise, CEO's bigger raise  
education funds are cut, Sharpton is zealot nut  
lower class bloody hands, living in the promise land

My country 'tis of thee, sweet land of liberty  
God bless America
