For a time, I thought my faith
It must be hiding
Searching through the sky
Hoping to find the way, a way
To get me through the day

When the way I belong
Is this where I should stay?

Lift me up when I am fallin'
Put my flair when I was callin'
Now, I'm on top of the world
On top of the whole wide world

Ya, you've always been believin'
Give my life a whole new meanin'
Now, I'm on top of the world
On top of the whole wide world

It's threaten to be when it seems
I had forgot t
Now I, realize the day
I'm starting to dream again, again
Wasn't matter of when?

I guesst we all lose a way now and then

Lift me up when I am fallin'
Put my flair when I was callin'
Now, I'm on top of the world
On top of the whole wide world

Ya, you've always been believin'
Give my life a whole new meanin'
Now, I'm on top of the world
On top of the whole wide world

Uau, uau, uau
Uau, uau, uau

You lift me up

When I was fallin'
You lift me up
When I was fallin'

You lift me up when I am fallin'
Put my flair when I was callin'
Now, I'm top of the world
On top of the whole wide world

Ya, you've always been believin'
Give my life a whole new meanin'
Now, I'm on top of the world
On top of the whole wide world

Ya, you've always been believin'
Give my life a whole new meanin'
Now, I'm on top of the world
On top of the whole wide world

Yeah

Ya, you've always been believin'
Give my life a whole new meanin'
Now, I'm on top of the world
On top of the whole wide world
