I always held on to your eyes as I believe
That somehow your always be next to me
This empty room reaches out to take away the best of
me
There is no silences to describe what I feel

Walk with me, Talk with me
Imagine there is nothing that can harm you in this
world
Stay with me, Look at me
Just wait before you go
Just as lilfe done you wrong, Hold on

Your faithless, you donh't believe in anything
Capture by that sadness, Your all right

You faithless, your head down in despair
Stuck there in the blackness, your all right

Sort of love that out last time
My realitive annilistic thinking left behind
I'll cover you and keep you and your beautiful smile
Vanish from the phycal into my mind

Walk with me, Talk with me
Imagine there is nothing that can harm you in this
world
Stay with me, Look at me
Just wait before you go
Just as lilfe done you wrong, Hold on

Your faithless, you donh't believe in anything
Capture by that sadness, Your all right

You faithless, your head down in despair
Stuck there in the blackness, your all right
