At one point when I still had self control
You tested me, taunted me, just so you could see me
break
And in light your judgment you look pretty suspect
All talkin' bout respect, But you don't deserve it

And I won't be your doormat and I will not take your shit
And I can't let you keep this up, I know that you won't
quit

You stand up and run your mouth off
You better step off before I break
Two times you confront, Two times you have fuked me
I can't wait for you to see the worst part of me

And I have taken just about as much as I can take
And I am at my boiling point I think I'm going to break

Strike three and your out, Bitch how you like me now?
Pop pop and you're on the ground, So how you like me
now?
Strike three you had your chance so how you like me
now?
Punk, How you like me now?

And I have taken just about as much as I can take
And I am at my boiling point I think I'm going to break
And I won't take your shit
And I won't fukin quit this now.....
