

## Stubborn All Stars

### "Glimmer Of Hope"

Visit "[Glimmer Of Hope](#)" on MotoLyrics.com

You're my one glimmer of hope, my only hit of joy  
That shines like a beacon of light  
To pierce the heart of a lonely boy

You're the sole star in my sky that keeps me trudging  
on  
You light up the dark of my night  
And keep me warm when I'm traveling long

I've tasted love and loneliness  
It's strange how close they seem  
I'd love to spend my whole life loving you  
Don't wake me from this dream

You're the best thing in my life, my little babydoll  
My one proof of love at first sight  
The only love in a very long time  
To bring a tear to my eye
