Where's the neverending love?
An endless crush I had on no other
I'd be waiting from across the street
In a car I made a plan for you and me

Hello,
All over the world
Hello, hello, hello

Cold the hands the hands I see
They are cold and you down
Ain't they calling for me?
I wonder if you're real and nobody cares
But I love you so much
and we hardly ever met

Hello,
All over the world
Hello, hello, hello

I watched the streets
Every street
You're not here
And on my way I'm all alone

I don't worry
We'll stand close
Hello,
All over the world

We'd be hands in hands
You'd feel so close to me
Yes it's easy to see
That the cold that I feel
Well it could be the winter
Or the fact we hardly ever met

Hello,
All over the world
Hello, hello, hello

I watched the streets
Every street
You're not here
And on my way I'm all alone

I don't worry
We'll stand close
Hello,
All over the world
The world...
We'll stand close
I'll go on
Hello, hello, hello, hello

A call in the wind
But nobody cares
I'm running forever, ever
Running faster, faster

Nobody cares
Cause always the wind blows
And nobody ever, ever
Goes faster, faster,
Fine!
Faster than me...
