Walking around tight like you'll buckle up today

Today was a good day to go and lose your eyes

I guess that it was best, don't see the exit from my chest

To see the lessons learned teething on a hole yet filled

It's raining once again but I can't see the clouds

The flames are burning me but I can't see the fires

I see you speaking words and I can feel their sound

Why do you constantly have to blurt it out?

It's what you do!

This song it'll echo new, it'll echo new for you

Heavily of pain like it's raining

(I'm) sorry, "sorrys" sound the same

You'll get what you deserve

Sorry, trust is not a four letter word

It's raining once again but I can't see the clouds

The flames are burning me but I can't see the fires

I see you speaking words and I can feel their sound

Why do you constantly have to blurt it out?

It's what you do!

This town is dead tonight so much like my life

You seem to dissipate the ones I care about

I see the reasons why you do what you do

Because you hate yourself, greed motivates you

It's what you do!
