Cristian -

In the blink of an eye

Everything can change

Going to where it began

All is forgiven

It's fucking erased

Can't stop reliving

This torment and pain, but...

I believe

I believe

That a time will come

When my mind will be free

I'm going alone

Down that road

To a place nobody knows

No turning back now

We're almost to the end

I might not come back now

So I tell you to tell them remember this day

I believe

I believe

That a time will come

When my mind will be free

I believe I believe

That the world will change

And my mind will be free

I believe

Dwelling soul of the earth

And I can't go on anymore

Sometimes I wanna cry

And sometimes I wanna die, but no

I believe

I believe

That the world will change

And my mind will be free
