Crawling inside of me  
My body is aching  
From the wounds you inflicted in me  
Shivering from the cold  
...-Displayed by your eyes-...  
Shattering hate into me

You?re always the first to talk  
...-and the last to forget-...  
Desire slips away  
Better off dead in your eyes  
...-in my eyes-...  
You?re better off dead in your lies

Waste away as you grind down alone  
Fall away as I let go

Fraying away at me as I scream in anger  
Shadows fall as I push you away

Shivering from the cold  
...-displayed by your eyes-...  
Shattering hate into me

You?re always the first to talk  
...-and the last to forget-...  
Desire slips away  
Better off dead in your eyes  
...-in my eyes-...  
You?re better off dead in your lies

Waste away as you grind down alone  
Fall away as I let go
