each and everyday
i somehow find away to think of you again.
but in the back of my mind i know i waste my time
cuz yeah im thinking of you again.
its something in my dreams i never knew just what it
meant to you.
its something in my life i just never knew what to do.

i wish there was a day you would come my way,
cuz id wonder what id say and in the back of my mind
i know id waste my time
cuz im thinking of you again..

something in the way with the words you say it makes
me think of you again.
each and every night, i wanna hold you tight.
cuz im thinkin of you again..
its something in my dream i never know just what it
means to you .
its something in my life i just never wondered why.
cuz im thinkin of you again.
