Summertime when I can't wake to you
I'll have this feeling in my throat
it's the feeling that I know I miss you
and I can't let it show

breathe in breathe out
I'm losing all I know
breathe in breathe out
I'm losing all I know
woah, losing all I know

seasons change as I look out the window
trading memories I know
thinking of the things I left behind me
miles away from all I know...

[x2]

breathe in breathe out
I'm losing all I know
breathe in breathe out
I'm losing all I know
