Travel, travel  
i tried to run but  
i couldn't push my feet away from us  
stumble stumble  
you throw---rumble  
the boat was to heavy for me  
everything that was  
wasnt really what i thought because  
u had ur game on luck

-----  
holding hands and public scenes  
thinking i was exclusively  
yo, u can keep this rock  
i call my own shots

Done, done, done  
the damage is done  
fed up with playin  
boy i hope u had fun  
and i must admit  
u had me convinced  
that u were different  
but now the damage is done  
done done done  
the damage is done  
fed up with playin  
boy i hope u had fun  
and i must admit  
u had me convinced  
that u were different  
but now the damage is done

Crumble crubmle  
now the dreams of  
me and u no longer a priority  
humble humble  
without u near me  
i see the beauty inside  
u didnt see  
should've been treated like a jewel  
instead i was ur fool

u just ---- my heart  
i gave u all that i got  
funny how when ur in love  
u just cant see the truth  
even when its right in ur face  
-----to walk away

Done, done, done  
the damage is done  
fed up with playin  
boy i hope u had fun  
and i must admit  
u had me convinced  
that u were different  
but now the damage is done  
done done done  
the damage is done  
fed up with playin  
boy i hope u had fun  
and i must admit  
u had me convinced  
that u were different  
but now the damage is done
