You took my love and I'm willin
But there's no limit to the love I'm givin
The love I'm givin, Oooooooooooooooooo

There's no reason why
We should be apart
Oo, Oh Baby
Cause searching for something out there,
Will lead to lonely hearts,
To lonely hearts.

Baby don't you know?
We've come too far to let love end
I've told you over and over again
How I feel inside but if you go,
Ooo baby, there's something you should know,

Something you should know
There's something in my heart.
Somethin in my heart, somethin in my hearts
Got me hooked on you.

Baby if we try.
Things could get better.
No one could tell me different
We should be together.
Baby don't you know?

The changes I'm going through
You know I'll never be the same
Your love has touched me so
There's no one else to blame
But youoooooooooooooooooooo

There's something you should know
There's something in my heart.
Somethin in my heart, somethin in my hearts
Got me hooked on you.
