You say it's alright if I want to come by
What can I do for you tonight
But if I'm gonna come by, then you'll have to try
something new
And if you wanna be with me, tonight is the night set
for you

Yeah, check
I got different styles for different MCs
I've got styles to make MCs freeze
In they tracks, but I ain't got no time for all of that
The party's packed, and I'm checkin', how you gonna
act
Coast to coast connection like that
Michel'le, Death Row, Black Wax, phat tracks
I'll hit you, wish you knew the remedy
So peep it, single black female, freak me

If tonight (If tonight)
Is the night (Is the night)
It's alright (If you get yourself together)
Tonight is the night (Tonight is the night)

Is the night (Baby)
To be more than friends
It's alright, but only if
Tonight is the night

Tonight is the night
When I'll feel it's right to do what I like
'Cause tonight is the night
When I'll feel it's right, gonna do what I like

If tonight (If tonight)
Is the night (Is the night)
It's alright (So get yourself together)
Tonight is the night (Tonight's the night)

Is the night (Oh, yeah)
To be more than friends (Hey)
It's alright, but only if

Tonight is the night

[Uh] Show me what you got [Got], now tell me what you like [Yeah]

Now tell me how to plan to dismantle this phat track
(Ho)

When it's comin' at your face [Uh], givin' you a taste
(Mmm)

You heard about the treble, the treble, here come the
bass

Got my feet on solid ground, never actin' like a star
Another new style, add it to the repertoire, here we are
I never let a hype track nigga put your finger on record
I'll rip it down like a singer

Well, tonight is the night
When I'll feel it's right to do what we like, yeah

If tonight (If tonight)
Is the night (Is the night)
It's alright (I expect you to get yourself together, baby)
Tonight is the night

Is the night (If tonight)
To be more than friends (We can be more than friends)
It's alright, but only if
Tonight is the night

Tonight is the night
When I'll feel it's right, we'll do what we like, you'll see
'Cause tonight is the night
And I feel it's right

If tonight ('Cause if tonight)
Is the night (Is your night)
It's alright
Tonight is the night

Is the night (Come on down)
To be more than friends (Come on down)
It's alright, but only if
Tonight is the night ('Cause tonight is your night)

But you've got to do it for me
You've got to do it for me
Yes, you've got to do it for me

When I walk up on a scene, I never have to lean
I never pop s@#\$ or be havin' to flash green
Got ladies in the front, my niggas in the back
They lookin' all around for the million mack

Strong peace to the gangsta, peace to the God
Peace to them suckas that be tryin' to playin' hard
With your artificial gangster kits
You need to take that a## back to school to learn some
real s@#&

If tonight (If tonight)
Is your night, babe
It's alright (Tonight, tonight, tonight)
Tonight is the night

Is the night
To be more than friends
It's alright, but only if
Tonight is the night

(Uh, huh, oh, yeah)
Tonight is the night
(Ooh, hoo, oh, yeah)
Tonight is the night

(Uh, huh, it's magic)
Tonight is the night
(Yeah)
Tonight is the night

(Ooh, hoo, ah, yeah)
Tonight is the night
(Ooh, hoo, oh, yeah)
Tonight is the night
