Don't, don't ask me to explain  
I've already told you  
More than words could ever say  
Every time I hold you  
When you're happy, when you're sad  
Through the good times and the bad  
No matter what you do, I'm hanging on  
And on and on

And if an angel comes my way  
I'm gonna try to catch her if I can  
Do anything to get her to stay  
Baby, that's the way I am

You can call me stupid  
Say I should give you up  
But I can't do it  
That's the way I am

Don't, don't ask me why I say  
Say I could do better  
Hey, it's just a little rain  
And we can't get much wetter  
Let me hold you when you cry  
Just let go and close your eyes  
No matter what you do, I'm hanging on  
And on and on

And if an angel comes my way  
I'm gonna try to catch her if I can  
Do anything to get her to stay  
Baby, that's the way I am

You can call me stupid  
Say I should give you up  
But I can't do it

That's the way I am

That's the way I am

And never mind the time and place  
As long as you still want me, I'll stay  
I'm hanging on and on and on to you

And if an angel comes my way  
I'm gonna try to catch her if I can  
Do anything to get her to stay  
Baby, that's the way I am

You can call me stupid  
Say I should give you up  
But I can't do it  
That's the way I am

That's the way I am  
That's the way I am
