VERSE 1: All the time she spent around me, in the warmth of my embrace was a testimony of the sweetness of your grace. All the pain and all the sadness always easier to bear, because you came and made a home within our love.

CHORUS 2: My Lord, how can I make her understand that I still care, My Lord whenever she needs a man around, I'm not there? My Lord, how can I make her know that our love has found a home within your heart?

VERSE 2: Lord all the fame and all the glory, that I dream of every day will only leave me lonely oh yes it will if I let her go away but thy fear of her departure like the rainbow fades away, because you, came and made a home within our love.

BRIDGE: How can I make her know she has changed the world I see? How can I let her go when without her there can be no me? How can I make her know everything we do through the grace from you?
