ALL YEAR ROUND - Paul Weller

Our eyes meet across the floor

We don't have to say much more

Lets take a chance on it

Say you'll be mine till spring

We kiss in crowded streets

We kiss everytime we meet

Who knows how it will go

Stay here till summer comes

I love you more each day God sends

Love you because you are my friend

Oh, don't say our luck has blown

Oh stick with it till autumn goes

Lets make love in the light

Sleep together every night

Oh with dark days all about

Oh, lets stay together, see the winter out
