Alone tonight, stars shining bright  
And I dream that your beside me  
I wait for you, what can I do  
Heaven knows if only you loved me

And my heart beats just like a drum  
And my heart beats it goes boom boom boom  
And I'm pleading you won't let me go  
You've started this deasire,

And my heart beats just like a drum  
And my heart beats it goes boom boom boom  
And I'm pleading you won't let me go  
You've started this desire,

Feeling the heat, my body's weak  
In my world your love surrounds me  
I wonder what we have begun  
Won't you put your arms around me,

And my heart beats just like a drum  
And my heart beats it goes boom boom boom  
And I'm pleading you won't let me go  
You've started this desire.
