i'm there too  
I see myself in you  
In everything you do  
And when you're all alone at night  
You know I am by your side  
Cuz I'm there too

I see me in your eyes  
And I'm tears you cry  
And when you fall apart  
And I'm dying from a broken heart  
I'm there too

I see your footsteps in the sand  
As you journey on across this land  
But if you should fall on your way  
Then I will carry you that day

Cuz I'm there  
I'm there too  
Yeah I'm there too

I see your face in mine  
And I know there'll come a time  
When you will take my hand  
And I will understand  
That you're there too  
When you will take my hand  
And I will understand  
That you're there  
You're there too
