A rose in Holland starts to bloom  
The world is like a toy balloon  
I hear a love song and I cry  
And I know why

Because I love you girl  
Because I love you girl  
You know there's nothing in the world  
That I wouldn't do  
Nothing in the world  
That I wouldn't do for you  
Because I love you

If you should ask me for the moon  
Of course I'd show up with the moon  
No matter what you ask, I'll try  
And you'd know why

Because I love you girl  
Because I love you girl  
You know there's nothing in the world  
That I wouldn't do  
Nothing in the world  
That I wouldn't do for you  
Because I love you

Because I love you girl  
Because I love you girl  
You know there's nothing in the world  
That I wouldn't do  
Nothing in the world  
That I wouldn't do for you  
Because I love you
