"I Will Love You Always"

Visit "[I Will Love You Always](#)" on MotoLyrics.com

Always, I will love you always
Til my very last days
Til the end of time

How deep, how deep is an ocean
How high, how high is the sky
That's how much I love you baby
Never ... never less
How long, how long will it last

Always, I will love you always
Til my very last days
Til the end of time

I will love you always
Til the end of time

How far, how far is a rainbow
How bright, how bright is a star
That's how much I love you baby
Never ... never less
How long, how long will it last

Always, I will love you always
Even with your new ways
I will make you mine
Always, baby it's for always
Til my very last days
Til the end of time
I will love you always
Til the end of time
