Don't wanna live my life lookin to rosie carter dances
yo!

I'm at my best when I'm put to the test

I'm steppin on a high q note

It's a one-way street, so I'm usin my feet to

Kick up all the dust as I go

This life wouldn't be as sweet if I gave up on the street

Come on! happiness dancing with my flow

This feeling

I share my joy with you

Love found it's way right into my heart

For the moment, I'm weak at the knees

Ahh, yes, for your soul reply

For life is a journey that we must inspire

Ahh, yes, for your soul reply

Oh life is a journey that we must inspire

Are you gonna treat me right

If I make it up, or maybe catch your eye

We might feel better things with a smile thinning?

Little things when we roll a little extra then die?

Tell me, where am I supposed to land

Carried by the winter wonder sacred sand

Send me off for the day though the night slips away

Only several minutes when I saw you cry

This feeling

I share my joy with you

Love found it's way right into my heart

For the moment, I'm weak at the knees

Ahh, yes, for your soul reply

For life is a journey that we must inspire

Ahh, yes, for your soul reply

Oh life is a journey that we must inspire

(We're inspiring, justifying, we're inspiring, satisfying,
satisfying)

(We're inspiring, justifying, we're inspiring, satisfying,
justifying to you)

This feeling

I share my joy with you

Love found it's way right into my heart

For the moment, I'm weak at the knees

Ahh, yes, for your soul reply

For life is a journey that we must inspire

Ahh, yes, for your soul reply

Oh life is a journey that we must inspire

(We're inspiring, justifying, we're inspiring, satisfying,
satisfying)

(We're inspiring, justifying, we're inspiring, satisfying,
justifying to you)
