I know who you want to see
You can't stop sayin it in front of me
You met some guy some other time
His life seemed so much better than mine
You think that I should be like him
Then you could be proud to talk about me
I dont care where your dreams begin
Its not where Im gonna be

N this is just to let you know
Whatever you said, Ive let it go
This is just to let you know..

If you wish to leave a record of your call
Please state your message at the sound of the tone

Its funny how when this all comes around
Ill say fuck your money, fuck your life
And outta you there will be no sound
No biteback, no comment n no look of supremacy
From a face without eyes
Nothin but a smile with no identity
The effect you expected to have is nowhere to be seen
But you still keep tryin
Even though it worked on you it dont mean a thing
Like lightinin that strikes twice, theres dark n theres
light
No in between, no evening, just rainy days n cold
nights
Your wrong and Im right, tryin to put your stake in my
life
Keep your eyes open and wide
Cause the rope your walkin is tight
Now I got nothin to hide because Im nothin like you
No matter how hard you try, I still got nothin to prove...
To prove..to prove..to prove..

I know what you think of me
Even after Ive stopped listenin
Even when Ive left this all behind
Confined somewhere in the back of my mind

Someday Ill remember you n the kind of life you tried
to sell me
Everyday you get further away....
Fading into memory

And this is just to let you know
Whatever you said, Ive let it go
This is just to let you know..

And this is just to let you know
Whatever you said Ive let it go
This is just to let you know..
