Captain America is that you  
Flying down the highway  
In your red white and blue

You remind me of the days  
In that infamous war  
When we weren't quite sure  
What we were fighting for

I see you again and it makes me think  
About just who I am  
Is there someone in charge  
Who can lead the way tonight  
Who knows the plan

Where there's love  
There is grace  
There's still hope left in this place  
And the smile on your face  
Gives me faith in the human race

Captain America what do you see  
Millions of your brothers say they'll fight to be free  
Who could have known you would be the chosen one  
To kick start our dreams  
The cycle of life goes around and round again  
Tell me what does it mean  
Can it be true

Where there's love  
There is grace  
And there's hope left in this place

And the smile on your face  
Gives me faith in the human

If we could trade all of our tomorrows  
For the best of our yesterdays  
Erase all the pain and the sorrow  
Would there have to be a high price to pay  
Hey Hey

We run for our lives  
And we're searching for shelter now  
From the coming storm  
Are you the man who can lead us once again  
So come on, suit up, let's go

Where there's love  
There is grace  
And there's hope left in this place  
And the smile on your face  
There's not a damn thing we can't face

Where there's love  
There is grace  
And there's hope left in this place  
And the smile on your face  
Gives me faith in the human  
Faith in the human race  
Yeah, I got faith
