Where am I going
How do I get there
What should I bring along
Are people kind there
Is peace of mind there
Will I finally belong

Cause you know ships sail their courses
And heroes ride horses
They know where they belong
But I travel in circles
Quickly to nowhere
Singing my unfinished song

Some poets say that
There'll come a day that
I'll find a place for me
Why aren't I there yet
Why can't I share yet
Why can't my heart be free

Cause you know ships sail their courses
And heroes ride horses
They know where they belong
But I travel in circles
Quickly to nowhere
Singing my unfinished song
