### "December's Coldest Day"

I'm gonna leave you know, not gonna turn around  
I seemed so far away, when sadness turned it's face  
Thought i'd never hit, thought i'd never run  
You'll know where you stand, when all's accounted for...

Jealousy...jealousy  
Has it's consequences  
No one cares what you say  
When trust has gone away  
It's over you and me,  
It ain't what it used to be  
No one cares what you say  
When truth has gone away

It's all been said before, just try to heal your sores  
Like runaway, tomorrow's another day  
Daylight suddenly, I'm starving more than usually  
Common sympathy... sounded new to me
