I Ain't no prophet  
Don't wanna cure no damn disease  
Would you marry me anyway  
If I was on my knees

Goin' through my time of change  
In my time of need  
And all the love, in the world, foreverâ€¦

So I thought to myself  
I'm gonna marry into wealth  
I'm gonna take everything she's got  
I'm gonna keep it for myself  
She said to me I don't like what I see  
And I said to her  
I don't even know your name  
And she said to me I don't like what I see  
And I said to her  
I don't even fuckin' care

I ain't no prophet  
Don't wanna cure no damn disease  
Would you marry me anyway  
If I was on my knees

Goin' through my time of change  
In my time of need  
And all the love, in the world, foreverâ€¦

She said to me I don't like what I see  
And I said to her  
I don't even know your name  
And she said to me I don't like what I see  
And I said to her  
I don't even fuckin' care
