no woman no cry
no woman no cry
yea
we remember all the things about back when we used
to sit
and talk about all the girls that we had in the basement
down at my house
grandma upstairs but you know we didnt ever care
over over serving the hits that we would play
lets become big is what what we would pray
and they would mingle with the good songs that we
made
write enough of them and well market just got to pay

and good friends we had and good friends we lost
and they were young across so now the pain will last all
day
but thats alright 'cause listen up and now im gonna say
in this bright future you cant forget your past 'cause it
wont last yea
so dry your tears and now i say to all the men that had
to lead the way

no woman no cry
no woman no cry
no woman no cry
no woman no cry
yea

hold up hold up
say now remember when we used to rock better be
jumpin and pickin away the 'tar
in the basement down at my house gotta make a play
to keep on top a list of who got laid
and then k1 would strive to make the band alive
and he could do it to
jumpin to rock the mic so we could burn on through the
nite
comin up on the one now get a sit to get the job done
and then we would look who to the fighter with the
courageos left hook
im caught upon a fret so we can get our due

me and the kid will be layin the fattest tracks that you
ever knew
up up up up and away my super dreams on the wind of
sellin out today
and i dont give a damn about the music biz
im just writin my songs and what im tellin you is

everythings gonna be alright
and everythings gonna be alright

marijuanas in the house tonite
and everythings gonna be alright
everythings gonna be alright now
and everythings gonna be alright
we come alive in the house tonite
and everythings gonna be alright

no woman no cry
no woman no cry
no woman no cry
no woman no cry
no woman no cry

lemme say about that baby
if you got no woman then youve got no brothas
and my heart is gonna tell me to wave goodbye
and if i never had wanted a woman i wouldnt be havin
one to me
if i had it again i would tell you what i please
and i take em round and i take em down
now im thinkin of gettin possession we got now the
morn
and i got the ones that dont love me
i wanted a woman with me
you dont get nothing for free
yea

no woman no cry
no woman no cry
no woman no cry
no woman no cry
yea

put that in your pipe and smoke it
