One, two, three, four

Early man walked away as modern man took control
Their minds weren't all the same, to conquer was their
goal

So he built his great empire and he slaughtered his
own kind

He died a confused man, killed himself with his own
mind

Early man walked away as modern man took control
Their minds weren't all the same and to conquer was
their goal

So he built his great empire and he slaughtered his
own kind

And he died a confused man and he killed himself with
his own mind

Let's go

We're only gonna die from our own arrogance
That's why we might as well take our time
