Greetings to all in hell  
You all do it well  
As the mark on the map  
Where we're all getting trapped  
They all live aside as if it was suicide  
As they decide to live on the deathride  
Deathride to escape.

Surely hell is better than heaven  
Cause everyone goes down under  
No one is perfect, no one is good  
They all think they're in heaven soon  
As they decide to live on the deathride.

I know for sure that I'll make it to hell  
Cause I know what kind of person I've been  
Others believe in heaven, you're blind  
You're stuck, no wonder  
Your life is fucked.

Greetings to all in hell  
You still do it well  
Making the rules of this world  
As people are getting curled  
Greetings to all in hell  
You all do it well  
As the mark on the map  
Where we're all getting trapped.

I know for sure that I'll make to hell  
Cause I know what kind of person I've been  
Others believe in heaven your faith  
Deathride to escape.

Deathride to escape  
Deathride to escape.
