### "Introspective Thoughts"

Glasslike eyes  
I'm looking from beyond  
Introspective what have I done  
My life is exposed, now what should I do  
When opportunity, is the words  
I just can't see through.

I'm not searching for all the answers  
Just a guide to lead the way  
Cause it's getting harder and harder  
To avoid this judgment day.

Where do I start, and when does it end  
Depression sets in  
Departure is set for all lost soul  
The last humane element  
Has now left us all.

I'm not searching for all the answers  
Just a guide to lead the way  
Cause it's getting harder and harder  
To avoid this judgment day.

Raised fist I'm repulsed  
As I object to my anger burst  
Psychical pain no longer hurts  
Realistic images you are my worst  
Raised fist to all the scum on the earth  
As I object to my anger burst.

I'm not searching for all the answers  
Just a guide to lead the way  
Cause it's getting harder and harder  
To avoid this judgment day.
