Hold your eyes, on the skies
Neutralise, Neutralise,
they tries, they dies, for that.
All beautiful people 'round here,
just fucking' whores!
War, need no more, need no peace sticks,
I wanna see the sun rise till bass kicks.
That's why I am that fancy preacher,
Just fucking ' more.
Get up, Get up now burn up the lies!!
Yo got the drugs an I have the life!!
Can not chose between the 2 ways of prime,
New way to fly!!!!
ref:
I will fly, what if i'm in the show
Right in to the sky.
I will fall, what if i'm on the ground
But 'Cause faith is not so kind.
Federal, matter together all back in the B.U.D.A.P.E.S.T.,
Takin' a backof a bullet while the bullet trash
Party's on, Rise it on!
"Boys", we shouldn't speakin about the dark events of
the life!
That's why I am that fancy preacher,
Feeding the rage, and girls who wanna reach 'em!
WHO, who could be the 1 who can reach the boys
who had reached the skies.
Get up, Get up now burn up the lies!!
Yo got the drugs an I have the life!!
Can not chose between the 2 ways of prime,
New way to fly!!!!
ref
