Too little too late
Don't you tell me how
It used to be
I've seen the record and it
Clearly reads "To date:
Too little too late"
Too little too late
Don't you talk about
The way things was
Bringing roses and
Turtledoves don't rate
Too little too late
I should have known
That it was now or
Never but good things
Come to those who wait
When nothing came
But the eleventh hour
I said honey, I'm taking
The liberty to
Liberate myself
Too little too late
Then was then
But honey, now is now
If I don't call
Then you can just
Learn how to wait
Too little too late
