Verse I

Blood stains upon my shirt
Maybe this time it works
Fade this reality
Facades so easily seen

Fool everyone around
My screaming muffled by the sound
Of your insensitivity

Bridge

But do you think that I can help
When I can barely control myself
I feel my life slipping away
But to you I look the same

Chorus

Trapped inside myself
I cannot feel ME
Saying words I know I'd never mean
To those I love
I've come too far to fall
This is my time

Verse II

I tried to let you in
Show you how it feels
To to be a sinner
And have your hands bound
Spit the words from your mouth
Clawing at the shell but you can't get out

Bridge

But do you think that I can help
When I can barely control myself
I feel my life slipping away
But to all of you I look the same

Chorus

Trapped inside myself
I cannot feel ME

Saying words I know I'd never mean
To those I love
I've come too far to fall
This is my time to BREAK OUT

Musical Breakdown/Interlude

Verse III

Hey god, Fuck you for what you've made
You made me free to be a slave
Myself, my master, you my friend
This is closure, this is the end

Bridge

But do you think that I can help
When I can barely control myself
I feel my life slipping away
But to all of you I look the same

Chorus

Trapped inside myself
I cannot feel ME
Saying words I know I'd never mean
To those I love
I've come too far to fall
This is my time to BREAK OUT
