"Deadly Medicine"

Visit "[Deadly Medicine](#)" on MotoLyrics.com

Winds of death producing richness

Human body as profit source

Massive poisoning in the name of cure

Spreading disease to the business maintenance

Criminal marketing hiding the systematic homicide

Addiction and exploitation - Suffering of billions

World population taken hostage by the dominant industry

Bizarre politics of people mistreat

Organic death - Rest for desperation

Crime against humanity

Exterminaton

Deadly medicine

In the time of the rising truth greedy actions will be a shame
