"Echo"

Karma is not individual, it is total

Each man is not an island, we are a huge continent

We are a piece of the whole, we are all connected

When something good happens, the whole vibrates as
consequence

When something bad happens, the whole vibrates as
consequence

Each human being is a particle of the drama

Each one is the destiny of the whole

When a cell becomes sick it's alike becomes sick as
well

There is only one energy that connects all the creatures

Discord echoing discord

War echoing war

Conscience echoing conscience

Peace echoing peace
