### "Firedance"

Visit "[Firedance](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I draw a circle  
I'm inviting you in  
Just one last step and then let me begin  
You've got another chance before you start the game  
You crossed the line  
Now you can't get away  
Believe in your eyes  
This is for real  
You've come to dance with the devil  
Close the deak, go  
Just start and you will go down  
Stay in the corner  
Ready for another round

From behind my back is what I hate the most  
Don't come too close  
Standing on my toes  
'Cause I'll go mad when I get even  
Are you happy to see me or is it a gun you're  
concealing?  
Just wait and see before it comes  
Another sucker looking for that one killer punch  
Say it to my face  
I'm filled with your lies  
I tell it to you straight  
You will pay the price

Firedance  
Firedance  
You've come to dance with the devil

Firedance  
Firedance  
You've come to dance with the devil

Now yet another fool to test my strength  
Keep up the speed  
You have to run the whole length  
I always start last  
I catch up in the end  
I'll catch up fast

Your last chance to make amends  
Keep on running because you can't hide  
Don't make it too easy  
You're so easy to find  
Like the sands of time running through your hands  
I'll ask you to come and join the fire dance

Firedance  
Firedance  
You've come to dance with the devil

Firedance  
Firedance  
You've come to dance with the devil

Can't take your eyes off the burning flame  
I'm calling out your name  
One last time  
You will step across the line  
and feel so alive when the fire calls out your name

You've come to dance with the devil  
You've come to dance with the devil  
I'm calling out your name

You've come to dance with the devil  
I'm calling out your name  
You've come to dance with the devil  
I'm calling out your name
