This isn't what I wanted  
This isn't what I chose

Don't wanna face the facts  
Don't wanna let go  
Don't wanna get over

This isn't what I asked for  
This isn't what I deserve

Some day I turn and leave  
suspend this belief  
and start all over

Take a look at yourself  
step inside the house of mirrors  
take your time  
precious time  
make your peace now and never ever after

This isn't what I am now  
This isn't who I want to become

Don't wanna start a fight  
Don't wanna feel despise  
Don't wanna surrender

I know I can be happy  
I know what is good for me

Some day I take a leave  
set myself free  
to start all over

Take a look  
at yourself  
step inside the house of mirrors  
Take your time  
precious time  
make your peace now and never after

Take a look  
at yourself  
step inside the house of mirrors  
Take your time  
your precious time  
make your peace now and never ever after

This wasn't what I wanted  
This wasn't what I chose

Don't wanna face the facts  
Don't wanna let go  
Don't wanna get over

Take a look  
at yourself  
step inside the house of mirrors  
Take your time  
precious time  
make your peace now and never after

Take a look  
at yourself  
step inside the house of mirrors  
Take your time  
your precious time  
make your peace now and never ever after..  
ever after..  
make your peace now and never ever after..
