Your faith is suffocating
All the guilt you force-feed me
Silence is a safe place to go
Where evolution is your foe
Revolution
Your greatest fear

Heavens fall
Hell is here

Your fear is paralysing
Cast out the evil in me
Hatred is a safe place to be
Blind faith is the right not to see
Denial is what you feed on
It keeps you straight and strong

Your love is killing me
Don't try to save me

You can't stop us now
You can't stop us now

Your faith is suffocating
All the guilt you force-feed me
Your fear is paralysing
Cast out the evil

Hatred is a safe place to be
Blind faith is the right not to see
Denial is what you feed on
It keeps you straight and strong

Your love is killing me
Don't try, don't try to save me

Your love is killing me
Your love is killing you and me
Your love is killing me
Your love is killing you and me
Your love is killing me

Your love is killing you and me

Don't try to save me

You can't stop us now
You can't stop us now

You can't stop us now
You can't stop us now

You can't stop us now
You can't stop us now

Your love is killing me
Your love is killing you and me
Your love is killing me
Your love is killing you and me
Your love is killing me
Your love is killing you and me
Your love is killing me
You can't stop us now
